security isn't pricey... it's priceless

STEALSHIELD WINDOW PROTECTION

Stealshield panels provide affordable intruder, insect and bushfire protection and have the convenience of being easily openable for painting, cleaning and escape during emergencies. Stealshields are constructed of woven powdercoated stainless steel mesh with apertures less than 2mm to comply with bushfire regulations, encased in timber grain or white trim to blend unobtrusively with timber joinery.

□ 377W white double hung top hinged stealshield
